### **[9 b ] Mental Health consultation to agencies**

MHYFVic advocates that all specialist Child and Adolescent Mental Health Services should give high priority to provision of Consultancy Services to other agencies in the community that provide services to young people and their families.

MHYFVic advocates that such consultancy should encompass Primary, Secondary, Tertiary and Professional Development supports to community agencies.

MHYFVic advocates that such services should be appropriately formalised through Heads of Agencies with specific statements of procedures and desired outcomes and reviews of achievements.
